

MINES OF MINERAL IN SPLENDID TRIM

J. Holman Buck, editor of the Western Nevada Miner and himself a mine owner with excellent prospects under development, came in from Mina yesterday for a brief visit.

Speaking of the mining outlook of Mineral county and especially of the southern half he states that never in the history of the county were the prospects as bright as they are at the present time. Rooms in Mina, Sodaville and Luning are at a premium owing to the large influx of mining men who are looking for mining propositions.

At Cinnabar, east of Mina, regular shipments of mercury are being made from the Pepper & Keough property, which is under lease to Mr. Andrews of Lone, the Summerfield, Sheppard & Buck property, which is being operated under bond and lease to Tom Miles, and the Drew & Farnham property. On the latter property a deal is on that will be closed in a few days in which J. H. Miller and George Wingfield are associates. The consideration is reported to be in the neighborhood of \$75,000.

January Jones this week took over the Al Drew gold-silver property, nine miles east of Mina, on a \$45,000 bond and lease, and operations will begin the first of October on an extensive scale. Backliff, Walsh & Thompson are operating the Olga property, 16 miles west of Mina, on a lease, and are working a force of 20 men. They recently encountered one of the most extensive bodies of copper ore in that section, the average ore from regular shipments running better than 10 per cent.

The Atkins-Kroll company has recently made an important strike of tungsten ore on the property they took over from Ed Hegland, adjoining the ground originally purchased from C. E. Noble. On the Wagner tungsten property, to the east, a high grade tungsten strike has been made in the shaft they are sinking. They are now installing a gasoline hoist. Spencer & Noble, who own a property to the east of this, and who have developed a large body of high grade shellite, have the machinery on the ground and are constructing a mill at Rhodes Marsh, three miles east of Sodaville. The big 100 ton mill of the Atkins-Kroll company at Sodaville is pounding away on tungsten ore and sending out the concentrates to the eastern market.

Holmberg, Pengelase and associates have taken over the silver-lead property of Drew, Farnham, Pache & Bass, to the east of Mina, on a bond and lease. The deal calls for the payment of \$25,000. The Sparta mine, at Silver Summit, west of Mina nine miles, is installing a hoist for the purpose of sinking the shaft to greater depth.

Luning is forging rapidly to the front. The Turk and Wall Street, in New York Canyon, is taking out a world of ore and keeping up regular shipments. This property is owned by C. R. Evans, A. H. Howe and associates of Goldfield. The Nevada Copper company, Mark Walser of Reno, president, has large reserves of ore and is making steady shipments. They are now running to second tunnel to cut their ore bodies at greater depth. To the north of Luning the Nevada Ore and Copper company is operating a ten stamp mill on its gold vein and getting good returns.

Ed Chaffy is shipping about three carloads of ore per week from the old Candelaria mines. The Moho, in the same section, was recently taken over by the Midway Oil company from

J. H. Miller, J. H. Cullen and Julius Schumaker.

P. D. Qualey, who is operating the old Queen mine, at Queen, in the southwest corner of Mineral county, recently struck a four foot vein of ore in virgin ground. Fourteen inches of this ore averages better than \$200. A pump is being installed and as soon as the water is lowered sufficiently work will begin on the 300 level.

Joseph L. Giroux, the well known copper magnate, has recently taken over a large acreage in the Marietta district and has a force of men building roads and doing other preliminary work, and as soon as this is completed a hoisting plant will be installed and the work of sinking a shaft will begin. This shaft will be sunk to depth regardless of what may be cut, with a view of proving that section.

The machinery is going forward from the station at Mina for the Fred Siebert mill at Goldsmith, east of Mina, and the grading for the foundation of the mill is being rushed as fast as possible. The mill is expected to be in commission in the next 30 days.

At Rand, an important strike of gold, silver, copper and lead ore has been made at depth, the vein being eight feet in width, three feet of which shows values of from \$60 to \$70. This was made on the Queen Regent Merger estate.

The Nevada New Mines company, at Rawhide, has made a bonanza strike of ruby silver on the 600 level, which is proving up the old boom camp at depth.

A regular building boom is on at Mina. Contract was let this week by C. E. Noble for a garage and machine shop, 40x60 feet, and several other buildings are in course of construction.

NOTHING LIKE GOOD OLD NEVADA STATE

Back from the wilds and jungles of darkest Africa comes Frank Rapp and "de-lighted" is he to return to Tonopah, where he made his home for years. Frank used to be a mill man at the Belmont. He also acquired a practical training in mineralogy while kicking about the western mining camps. The result was that he received an offer from a French-Belgian company, the one that Jack Berger of Tonopah has charge of, to go out to the Congo in a darker Africa than Stanley or Livingstone saw. He made the trip and stayed there two years, but the climate and the natives got on his nerves and he made his way home, "outspanning" at Oatman for a time.

PORKERS AVERAGE 500 EACH

The purchase of 159 record breaking hogs for size was made this week by Perez & Ast of the Pleasant Grove market from the big Rodgers ranch. The aggregation of porkers, when put on the scales, averaged nearly 500 pounds each. These hogs were raised on the Rodgers ranch and attained a fatness which has been the marvel of local stockraisers. The hogs are the Tamworth hogs, and are known as very fine bacon producers. —Loveless Review-Miner.

BOSTON STILL MAINTAINS LEADERSHIP

(By Associated Press.)
CHICAGO, Sept. 30.—The standing of the leading teams in the American league after yesterday's games follows:

Clubs—	W.	L.	Pct.
Boston	89	61	59333
Chicago	86	64	57333
Detroit	86	66	56579

There was no change in the National league, as all games were postponed.

(By Associated Press.)
ST. LOUIS, Sept. 30.—Detroit bunched hits off Wellman in the fourth and eighth innings and beat St. Louis in a fast game, 4 to 1. The locals out-hit Detroit, but except in the eighth could not get hits when they meant run. In the eighth singles by Lavan and Paulette, who battled for Wellman, with a sacrifice fly by Rumber, hitting for Miller, gave St. Louis its only run. Detroit got two runs in the fourth on singles by Dyer and Cobb and a double by Veach. In the eighth Young and Spencer singled, but Miller let Spencer's get past him, Young scoring and Spencer taking third. Spencer scored on Wellman's wild pitch.

SHIPMAN'S SENTENCE

T. J. Lynch, deputy United States internal revenue collector, one of the prosecuting witnesses in the case against D. L. Shipman, who was arrested here for manufacturing "whisky" and selling it to Indians, returned this morning from Carson City, where he gave testimony in the federal court. Shipman was sent to jail for seven months and fined \$1000. The greatest possible profit which he made from his business was about \$20.

CONFERENCE HELD

W. D. Forster, superintendent and traffic manager of the Tonopah & Goldfield railroad, held a conference yesterday at San Francisco with President Calvert of the Union Pacific and President Sproule of the Southern Pacific on traffic matters.

TEMPERATURE REPORT

Highest temperature yesterday, 75; lowest this morning, 50.
Highest temperature a year ago, 50; lowest, 53.

DON'T BUY ANCIENT BREAD SHIPPED IN

I would not buy strange, dry, squeezed bread, when I can buy bread of superior quality in every respect. The Progress and Vienna Bakery bread is rich in flavor and is made of the choicest eastern flour, and is heavier and goes further than any imported bread.

We are always ready for any order for pastry of any kind equal to that made in any city.

We can serve a large banquet as easy as a small banquet.
